

VEOLIA TRANSPORTATION

DID YOU KNOW...

- *Since Veolia Transportation (then Connex) took over the Central Midlands Regional Transit Authority in Columbia, South Carolina in 2002, fares have risen by 100%, downtown trolley service has been eliminated and additional service cuts were made even with increasing ridership?*
- *Veolia Transportation runs Canada's York Region Transit which has the highest fares in the country?*
- *Veolia Transportation is on the verge of losing its contract with the Regional Transportation Commission of Southern Nevada to First Transit because their proposed cost of operations was too expensive and could force huge cuts in service?*
- *As a result of the bus system's poor safety, maintenance and training, three buses in five months caught fire in the Veolia operated Gwinnett County, Georgia bus system?*
